GENERAL NOTE

The general format of the Statistical Appendix has been rearranged to conform to the organization of the Bureau of Land Management, which is divided into management areas as depicted in the map on the back cover. The States in each area have, for the most part, been arranged alphabetically.

Since public-land transactions are reported at many different stages of processing, statistics released by the various land-management agencies or by the same agency in different years must be checked carefully for comparability. The following paragraphs, detailing the stages at which the data in the Appendix were reported, have therefore been prepared to clarify seeming discrepancies in published figures and to facilitate the use of these tables in conjunction with reports from various agencies.

Areas officially surveyed are reported as of the date of acceptance of the plat of survey by the Director of the Bureau of Land Management, but surveys in the field are reported as of the date of completion in the field.

Withdrawals, restorations, and classifications are reported as of the date of the act of Congress, proclamation, or order (Executive, Departmental, or Public Land Order) which determines the status of the lands involved.

Patents and certifications are reported as of the date of issuance, as are deeds, permits, leases, licenses, and timber-sale contracts.

Entries, filings, and original selections are reported at the end of the accounting process, that is, when the required moneys are covered into the Treasury.

Exchanges and grants are reported as of the date of the patent or certification conveying the exchanged lands to non-Federal owners.

Receipts are reported as of the date they are covered into the Treasury.

Lands found suitable for classification are reported as of the date of action, as are "O. and C." timber sales and collections. "O. and C." income, however, is reported as of the date the money is covered into the Treasury.

a/ Includes the revested "O. and C." lands under the administrative jurisdiction of this Bureau and the reconveyed Coos Bay Wagon Road lands. The acreage is for "O. and C." lands except as footnoted in d/ and e/.

b/ Allowable cut is the annual cut which is allowable during the period of time required to achieve a balance of age classes in the forest stand. Potential cut is the future sustained-yield capacity based on potential growth discounted for probable losses from natural causes. These data are subject to revision on the basis of new inventory information.

c/ Includes advertised sales, negotiated sales, small sales, additional sales (under terms of contracts), right-of-way sales, and trespasses. These figures represent a 5-year annual moving average. Also includes salvage timber not ordinarily chargeable against allowable cut.

d/ "O. and C." lands, 223,553 acres; Coos Bay Wagon Road lands, 60,082 acres.

e/ "O. and C." lands, 281,166 acres; Coos Bay Wagon Road lands, 14,002 acres.

a/ For sales by species of timber, see Table 102.

b/ Includes advertised sales, negotiated sales, additional sales (under terms of the contracts), right-of-way sales, and contract reappraisals. Does not include controverted lands (Table 34) and small sales of forest products (Table 45).

c/ Based on allowable cut of year concerned. Since figures for allowable cut include the controverted lands, sales data for this ratio include the cut from the controverted lands in years prior to 1955. The 1955 through 1957 figures are based on the "O. and C." lands, exclusive of the "O. and C." controverted lands placed under Forest Service administration by Public Law 426. The sale volumes used in this calculation include salvage sales not ordinarily chargeable against the allowable cut.

Alaska Purchase (1867)	365,481,600	9,814,400	375,296,000	7,200,000

a/ All areas, except for Alaska, are given as computed in 1912 by a committee representing the General Land Office and the Geological Survey (Department of the Interior) and the Bureau of Statistics and the Bureau of the Census (Department of Commerce and Labor). See U. S. Department of the Interior, Office of the Secretary, Areas of Acquisitions to the Territory of the United States ..., Washington, Government Printing Office, 1922. These totals, except for Alaska, have not been adjusted for the recomputation of the area of the United States which was made for the 1950 Decennial Census.

b/ U. S. Geological Survey, Boundaries, Areas, Geographic Centers ..., Washington, Government Printing Office, 1939 (Its bulletin 817).

c/ Georgia cession, 1802: 56,689,920 acres. Donaldson, Thomas, The Public Domain; Its History, with Statistics, Washington, Government Printing Office, 1884, p. 11.

d/ Data for the Louisiana Purchase do not include areas eliminated by the Treaty of 1819 with Spain. Such areas are included in the data for the annexation of Texas and the Mexican Cession.

e/ This represents the drainage basin of the Red River of the North, south of the 49th parallel. Authorities differ as to the method and as to the exact date of its acquisition. Some hold that it is a part of the Louisiana Purchase. Others maintain that it was acquired from Great Britian.

f/ For area by States, see Table 2.

b/ Chiefly public, private, and preemption sales but includes mineral entries, scrip locations, sales of townsites and townlots, etc.

c/ The homestead laws, generally speaking, provide for the granting of lands to homesteaders who settle upon and improve vacant agricultural public lands. Payment for the land is sometimes permitted, or required, under certain specified conditions.

d/ Universities, hospitals, asylums, etc.

e/ For construction of various public improvements (individual items not specified in the granting acts), reclamation of desert lands, construction of water reservoirs, etc.

f/ The Government has confirmed title to lands claimed under valid grants made by foreign governments prior to the acquisition of the public domain by the United States.

g/ The timber and stone laws provided for the sale of lands valuable for timber or stone and unfit for cultivation.

h/ The timber-culture laws provided for the granting of public lands to settlers on condition that they plant and cultivate trees on the lands granted. Payment for the lands was permitted under certain specified conditions.

i/ The desert-land laws provide for the sale of arid agricultural public lands to settlers who irrigate them and bring them under cultivation.
